

STUDY ABROAD IN FRENCH

The Ongoing COVID-19 (Coronavirus) Situation

1. Starting with summer 2021, sponsored outbound international travel for Yale College students will be governed by the **Yale College Travel Policy**. Further restrictions may be imposed at any time if public health conditions require them. Proof of vaccination does not override Yale's Travel Policy, and note that it is the responsibility of the traveler to investigate and keep updated on country-specific requirements and/or restrictions that may hinder or make impossible travel to that location regardless of Yale's Travel Policy.
2. Yale has provided **Travel Guidelines** for all faculty, staff, and students. Continuously updated COVID-19 information also can be found on **Yale's COVID-19 website**.
3. Visit the **Study Abroad COVID-19 Updates** page for the latest information and resources relating to Yale Study Abroad.

Study abroad advisers continue to be available to hold virtual appointments with students via Zoom. To schedule a meeting, please use our **online appointment system**.

A. The [U.S. State Department](#) has issued a Travel Advisory Level 4 "Do Not Travel" for the country.

COVID-19 Notice: A CDC Warning Level 4 supersedes a State Department Travel Advisory Level 1, 2, or 3.

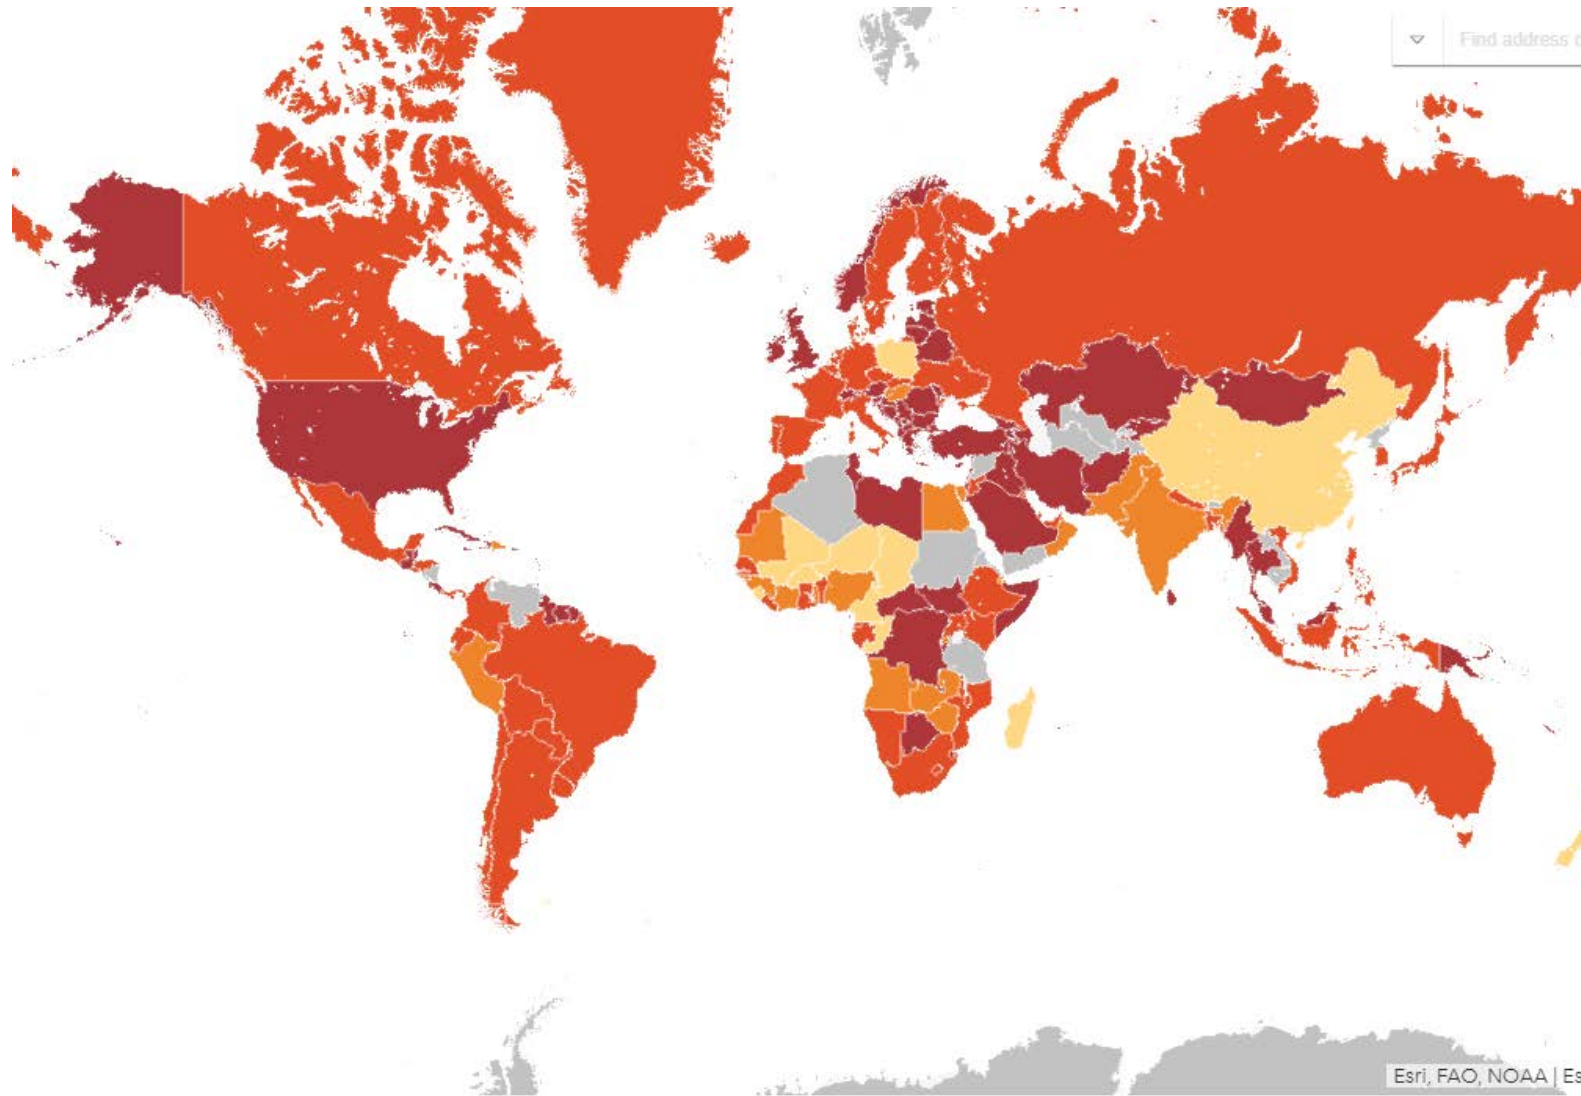

Students who intend to travel to a country for which the U.S. State Department has issued a Travel Advisory Level 3 "Reconsider Travel" should meet with an adviser for their program to discuss the heightened security risks.

NOTE: Students are responsible for carefully following all State Department Travel Advisories regardless of whether or not these advisories fall short of restricting student travel to the country (see: Item 1A above). For example, an advisory might issue a "do not travel" advisory to specific parts of the country or highlight the dangers of undertaking particular activities in the country. Students are expected to monitor such advisories and to take appropriate precautions, avoiding any specified areas or activities.

B. [International SOS](#) has issued a Travel Global Risk Rating of "Extreme" or "High" for the country.

NOTE: Students are responsible for carefully following all International SOS Risk Ratings regardless of whether or not these ratings fall short of restricting student travel to the country (see: Item 1B above). For example, a rating may be "Extreme" or "High" in specific parts of the country. Students are expected to monitor such advisories and to take appropriate precautions, avoiding any specified areas or activities. For more detailed, country-specific information, please utilize the Know My Risks section of the [International SOS online member center](#).

C. The [Centers for Disease Control and Prevention](#) has issued a Warning Level 4 or Yale has determined that travel to this country poses a credible health or security risk to students. See also [CDC COVID-19 Travel Recommendations by Country](#).
